## Contents

COVER PHOTO—This aerial view shows the new National Accelerator Laboratory at Batavia, Illinois, about 30 miles west of Chicago. This largest, most powerful accelerator in the world will accelerate protons to an energy of 500 billion electron volts. The main ring of the 250 million dollar accelerator is one-and-a-quarter miles in diameter. The photo was taken with a Zeiss RMK 15/23 camera at a scale of one inch equals 2,640 feet. Photographed by Sidwell Studio, Inc., Chicago, Illinois.
