

PHOTOGRAMMETRIC ENGINEERING and REMOTE SENSING

Volume 42

September 1976

Number 9

COVER PHOTO—Vertical view of Anchorage, Alaska, taken from an altitude of 47,000 feet with a Zeiss RMK A 15/23 precision mapping camera using double-X aerographic film 2405. Exposure was 1/400th second at f8. The camera was mounted in a Model 24 Learjet equipped with a specially designed door allowing for acquisition of high-altitude aerial photographs. Photo taken by North Pacific Aerial Surveys of Anchorage.

TECHNICAL ARTICLES

- Line-of-Sight Determination from Digitized Imagery
Michael A. Crombie and David L. Ackerman1151
- Compilation Base Orientation by Graticule
Richard H. Duncan1157
- Photogrammetric Self-Calibration of Scanning Electron Microscopes
Major David F. Maune, Ph.D.1161
- Multivariate Systems Analysis of Multispectral Imagery
Dr. Eugene L. Maxwell.....1173
- Independent Model Triangulation—an Improved Method
K. C. Saxena, M.Sc., A.M.I.S.1187

Second-class postage paid at Falls Church, Virginia and at additional mailing offices.

Published monthly by the American Society of Photogrammetry, 105 N. Virginia Ave., Falls Church Virginia 22046. Publication Office—Everybody's Press, Hanover, Pa. 17331. (Also see Notice on second following page.)

Copyright 1976 by the American Society of Photogrammetry. Reproduction of this issue or any part thereof (except short quotations for use in the preparation of technical and scientific papers) may be made only after obtaining the specific approval of the Editor.

The Society is not responsible for any statements made or opinions expressed in the technical papers, advertisements, or other portions of this Publication.

MEMBERSHIP RATES: Membership in the American Society of Photogrammetry is open to any person actively engaged in the practice of Photogrammetry, Photo-interpretation and Remote Sensing, or who by means of education or profession is interested in the application or development of these arts and sciences. The annual dues for Regular members are \$20.00 which includes a \$10.00 member subscription to the Society's official journal, "Photogrammetric Engineering and Remote Sensing." The annual dues for accredited student members are \$7.00 which includes a \$5.00 student subscription to the official journal.

SUBSCRIPTION RATES: Persons or organizations that are not affiliated with the Society may obtain non-member subscriptions to Photogrammetric Engineering and Remote Sensing in accordance with the following schedule:

Non-member subscription . . \$25.00 per year (calender)

*Non-student member subscription. . \$10.00 per year (calender)

(*Students must submit evidence of enrollment)

Printed in the United States of America.
