

PHOTOGRAMMETRIC ENGINEERING and REMOTE SENSING

Volume XLIII

October 1977

Number 10

COVER PHOTO—This oblique view, looking northward, shows three types of power-generating stations and illustrates their relative sizes. In the upper center is the Watts Bar Dam and hydro-generating plant. To the lower right of the dam is the Watts Bar coal-fired steam plant (near the arrow) with its fan-shaped coal stockyards. Covering virtually the remainder of the photograph to the left of the Tennessee River is the construction site of the Watts Bar Nuclear Plant scheduled for operation during 1979. Watts Bar Lake and these power sites appeared near the lower center of the Landsat II image shown on the cover for the July 1977 issue. Photo provided by the Tennessee Valley Authority, Mapping Services Branch, Chattanooga, Tennessee.

TECHNICAL ARTICLES

- Height Measurements from Satellite Images
R. Welch and C. P. Lo1233
- Stereoscopic Viewing of Landsat Imagery
A. V. Raju and E. V. R. Parthasarathi1243
- High Altitude Photography: Aspects and Results
D. Gut and J. Höhle1245
- Yield/Reflectance in Cabbage
J. R. Thomas and A. H. Gerbermann1257
- Detection of Oak Wilt with Color IR Aerial Photography
J. J. Ulliman and D. W. French1267
- Measuring Soil Moisture with an Airborne
Imaging Passive Microwave Radiometer
John E. Estes, Michael R. Mel, and John O. Hooper1273
(Continued on page 1201)

Second-class postage paid at Falls Church, Virginia and at additional mailing offices.

Published monthly by the American Society of Photogrammetry, 105 N. Virginia Ave., Falls Church Virginia 22046. Publication Office—Everybodys Press, Hanover, Pa. 17331. (Also see Notice on second following page.)

Copyright 1977 by the American Society of Photogrammetry. Reproduction of this issue or any part thereof (except short quotations for use in the preparation of technical and scientific papers) may be made only after obtaining the specific approval of the Editor.

The Society is not responsible for any statements made or opinions expressed in the technical papers, advertisements, or other portions of this Publication.

MEMBERSHIP RATES: Membership in the American Society of Photogrammetry is open to any person actively engaged in the practice of Photogrammetry, Photo-interpretation and Remote Sensing, or who by means of education or profession is interested in the application or development of these arts and sciences. The annual dues for Regular members are \$20.00 which includes a \$10.00 member subscription to the Society's official journal, "Photogrammetric Engineering and Remote Sensing." The annual dues for accredited student members are \$7.00 which includes a \$5.00 student subscription to the official journal.

SUBSCRIPTION RATES: Persons or organizations that are not affiliated with the Society may obtain non-member subscriptions to Photogrammetric Engineering and Remote Sensing in accordance with the following schedule:

Non-member subscription . . . \$25.00 per year (calendar)

Student*non-member subscription . . . \$10.00 per year (calendar)

(*Students must submit evidence of enrollment)

Printed in the United States of America.
