

# PHOTOGRAMMETRIC ENGINEERING and REMOTE SENSING

Volume XLV

January 1979

Number 1

COVER PHOTO — TOPOIMAGE™ showing the Traverse City Quad in Michigan. This image, produced from digital terrain data, exaggerates relief over the entire  $2^\circ \times 1^\circ$  topographic quad, which has elevations ranging from 589 feet to 1,580 feet above sea level. The scale is approximately 1:850,000. An artificial sun is assigned to a position  $30^\circ$  above the eastern horizon (east is to the right). TOPOIMAGE™ is a registered trademark of GeoSpectra Corporation of Ann Arbor, Michigan, who submitted the image.

## TECHNICAL ARTICLES

- Acquisition of Remote Sensor Data with Linear Arrays  
*R. Welch* ..... 45
- Remote Sensing Using Solid-State Array Technology  
*Leslie L. Thompson*..... 47
- User-Oriented Data Processing Considerations in Linear Array Applications  
*Richard A. Tracy and Robert E. Noll* ..... 57
- Sensor Implications of High Altitude Low Contrast Imaging  
*Ralph Wight*..... 63
- Multispectral Linear Arrays as an Alternative to Landsat D  
*Alden P. Colvocoresses*..... 67
- A Large Format Camera for Shuttle  
*Frederick J. Doyle* ..... 73

Second-class postage paid at Falls Church, Virginia and at additional mailing offices.

Published monthly by the American Society of Photogrammetry, 105 N. Virginia Ave., Falls Church Virginia 22046. Publication Office—Everybody's Press, Hanover, Pa. 17331. (Also see Notice on second following page.)

Copyright 1979 by the American Society of Photogrammetry. Reproduction of this issue or any part thereof (except short quotations for use in the preparation of technical and scientific papers) may be made only after obtaining the specific approval of the Editor.

The Society is not responsible for any statements made or opinions expressed in the technical papers, advertisements, or other portions of this Publication.

**MEMBERSHIP RATES:** Membership in the American Society of Photogrammetry is open to any person actively engaged in the practice of Photogrammetry, Photo-interpretation and Remote Sensing, or who by means of education or profession is interested in the application or development of these arts and sciences. The annual dues for Regular members are \$20.00 which includes a \$10.00 member subscription to the Society's official journal, "Photogrammetric Engineering and Remote Sensing." The annual dues for accredited student members are \$7.00 which includes a \$5.00 student subscription to the official journal.

**SUBSCRIPTION RATES:** Persons or organizations that are not affiliated with the Society may obtain non-member subscriptions to Photogrammetric Engineering and Remote Sensing in accordance with the following schedule:

Non-member subscription . . . \$25.00 per year (calendar)  
Student\* non-member subscription . . . \$10.00 per year (calendar)  
(\*Students must submit evidence of enrollment)

Printed in the United States of America.
