

**ANNUAL INDEX  
TO  
PHOTOGRAMMETRIC ENGINEERING  
AND  
REMOTE SENSING  
Volume XLVIII 1982**

The 1982 Index to *Photogrammetric Engineering and Remote Sensing* follows the format of the 1981 Index.

Using Keywords listed in the Engineers Joint Council, "Thesaurus of Engineering and Scientific Terms," we have provided the user with a way of identifying articles by subject and/or author.

To find an article, look up the keyword that best describes the contents of the article. Under each subject keyword, the articles are listed alphabetically by title.

If you know any of the authors, look them up in the Name Index.

Your comments on this type of Index for the Journal would be appreciated. The Index was prepared by Mr. Abraham Anson.
